PROFESSIONAL SUMMARY

- Web and Mobile Developer with over half decade of experience in building scalable, web and mobile applications.
 - Proficient in both coding (Laravel, React, Node.js) and no-code platforms (Webflow, Xano, Wized).
 - Adept at self-hosting, API integrations, and database management.
- Currently focused on mobile app development using React Native and Laravel, with a strong interest in creating value-driven projects that generate revenue.

KEY SKILLS

- **Web Development:** Laravel, React, Node.js, Go
- **No-Code Development:** Webflow, Xano, Wized, Memberstack
- **API Integration:** YouTube API, Facebook API, Stripe, Google APIs
- **Database Management:** PostgreSQL, MySQL, MongoDB, Data Migration
- **Mobile Cross-platform Development:** React Native (Expo)
- **DevOps & Hosting:** Self-hosting, Linux, Heroku, Vercel, Docker (learning)
- **Other Skills:** Figma, Python (data sanitization), Go (learning)

PROFESSIONAL EXPERIENCE

Freelance Web & Mobile Developer 2019 - Present

Petalert.fr

- Developed a French platform for finding lost pets using no-code tools (Xano for backend, Webflow for frontend).
- Integrated Facebook API and implemented complex cron jobs for automation.
- Migrated over 4 million records from MongoDB to PostgreSQL for Petalert.fr, ensuring data integrity and performance.

FacelessNiches.com

- Built a platform to analyze YouTube niches using YouTube API.
- Initially developed with no-code tools, later migrated to a custom-coded solution using Node.js for improved performance.

Translify.net (the services got canceled)

- Created an online translation service connecting users with translators, based on Laravel/Inertia React.
- Utilized Laravel for backend and Go for handling large file uploads.

Elwa3y.dz (not currently available on internet)

- Created a journal news for Algerian news based on Laravel/Inertia React.
- Created a mobile app version using React Native, which provides same feature of social media, (posting, commenting, bookmark....).

octaprizе.com (not currently available on internet yet)

- A social media for clothing and fashionable content.
- Created two apps one for users and one for stores (with react native), including a backend Laravel/Inertia, and Go for media upload.

EDUCATION

- **Master’s Degree in Computer Network and Data Engineering** | Ain Temouchent University | Algeria | Graduated: 2023
- **Bachelor in Computer Science** | Ain Temouchent University | Algeria | Graduated: 2021
- **Baccalaureate in Mathematic** | Meghni Sendid HighSchool | Ain Temouchent Algeria | Graduated: 2017

KEY ACHIEVEMENTS

- (FacelessNiches.com) Successfully migrated a no-code platform to a custom-coded solution using Node.js, reducing operational costs and improving performance, and well optimized in background tasks.
- (Translify.net) Developed and launched, a platform for document translation, combining Laravel and Go for efficient file handling.
- (Petalert.fr) Built a no-code platform for finding lost pets, integrating Facebook API and automating processes with cron jobs with Xano.
- (Petalert.fr) Migrated over 4 million records from MongoDB to PostgreSQL for Petalert.fr, ensuring data integrity and performance.
- (Side projects) Created a secure password storage platform using Nextjs, ensuring data security and user privacy.
- (Mobile Cross-platform dev) Learned React Native while building projects that are currently in production for large scale
